**HOW TO USE**

AREAS	PEST	RATE	HOW TO APPLY
Indoor and outdoor household areas	German cockroach	40 mL in 1 L water	For crawling insects, apply as a coarse low-pressure spray to areas where pests frequent.
	Australian cockroach	<b>Initial treatment Or Extended control Or Heavy infestations:</b>	For flying insects apply as a surface treatment using a fine spray to wet the surface.
	American cockroach	40 mL in 1 L water	This product is NOT to be used to control fleas on animals or pests on garden plants, including fruit and vegetables.
	Smoky brown cockroach		Application examples:
	Oriental cockroach		1 L of prepared spraymix will treat 20 square metres.
	Fleas		5 L of prepared spraymix will treat 100 square metres.
	Flies		If a different water rate is required, adjust the dilution rate to ensure that 2 mL of product is applied per square metre for initial treatments, extended control or heavy infestations; and that 1 mL of product is applied per square metre for maintenance treatments, short term control or light infestations.
	Silverfish		
	Spiders	<b>Maintenance treatment Or Short term control Or Light infestations:</b>	
		20 mL in 1 L water	Use the higher rate for ant control where population numbers are high.
Ants		<b>Initial treatment</b>	
		50 to 65 mL in 1 L water <b>Maintenance treatment</b>	
		35 mL in 1 L water	

**NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED.****HOW TO PREPARE**

This product controls insects by contact action and ingestion. When applied as a surface spray, the product offers long residual activity. To obtain best results all surfaces should be treated, especially cracks, crevices and infested areas. A higher volume of water may be required on very absorbent surfaces. Apply to the point of run-off only.

Shake or invert the container before opening. Carefully measure the required amount of product and add to water in the sprayer and mix thoroughly. Do not mix more spray than can be used on the day of mixing.

Thoroughly clean out sprayer after use.

**CAUTION**

DO NOT spray directly on humans, pets, exposed food, food preparation areas or food utensils.

If using inside the home evacuate areas to be treated. These areas can be re-occupied once spraying is completed.

**Before use** - remove or cover all exposed foodstuffs, cover all dishes and utensils, and places where food is prepared or stored.

Cover or remove bird cages or fish tanks during spraying. **After use** - thoroughly ventilate treated area. Clean up thoroughly before processing/serving resumes.

DO NOT allow chemical containers or spray to get into drains, sewers, streams or ponds.

**STORAGE AND DISPOSAL**

Store in the closed, original container in a cool, dry place out of the reach of children. Do not store in direct sunlight. Dispose of empty container by wrapping in paper, placing in a plastic bag and putting in garbage.

**SAFETY DIRECTIONS**

Harmful if swallowed. May irritate the eyes and skin. Facial skin contact may cause temporary facial numbness. Avoid contact with eyes and skin. Avoid inhaling spray mist. When using the product wear rubber gloves. Wash hands after use.

**FIRST AID**

If poisoning occurs, contact a doctor or Poisons Information Centre. Telephone 13 1126.

**MSDS**: Additional information is listed in the Material Safety Data Sheet available from PCT International Pty Ltd.

**EXCLUSION OF LIABILITY**

This product as supplied is of a high grade and suitable for the purpose for which it is expressly intended and must be used in accordance with the directions. The user must monitor the performance of any product as climatic, geographical or biological variables and/or developed resistance may affect the results obtained. No responsibility is accepted in respect of this product, save for those non-excludable conditions implied by the Trade Practices Act or any State legislation.
