

## To All Our Valued Suppliers

### **Subject: Classification Update for Surefire Buffalo & Surefire Decimate Products – Schedule 7 (S7)**

Dear Supplier,

We are reaching out to inform you of an important change regarding the Surefire Buffalo product. As of **1st February 2025**, Surefire Buffalo & Surefire Decimate will be classified as a **Schedule 7 (S7)** under the regulations governing hazardous substances. This reclassification recognizes Schedule 7 chemicals as having high potential to cause harm to human health, the environment, or trade.

To gain a comprehensive understanding of the implications of this classification, we encourage you to review the guidelines on the official Australian Pesticides and Veterinary Medicines Authority (APVMA) website: [APVMA - Rescheduling Bromoxynil Products](http://apvma.gov.au)

Due to this change, **PCT International will not be held liable for any Surefire Buffalo & Surefire Decimate stock that remains held in stores after the classification change takes effect**. Furthermore, please note that **we will not be accepting any return stock of Surefire Buffalo or Surefire Decimate under these new guidelines**. Please ensure you share this important information with all your Branches.

We strongly recommend that you take all necessary steps to comply with these requirements by the 1st of February 2025. Should you have any questions or require further clarification, please feel free to reach out to your Sales Representative.

Thank you for your attention to this important matter and for your continued partnership with PCT International.

Kind regards,

**PCT**  
INTERNATIONAL
