## CRITICAL COMMENTS

- \* Apply to actively growing weeds.
- \* **DO NOT** apply in rain waterlogged soil or drought dry areas.
- \* **DO NOT** overdose the application rate. Use the recommended rate ONLY.
- \* Yellowing or dying off may occur. It's recommended that small areas be tested before large-scale use.
- \* Use a wetting agent to make the chemical stick to the weed for coverage.
- \* **DO NOT** use dishwashing liquid.
- \* **DO NOT** use on excessively hot or cold days as the chemical won't translocate into the weeds.
